

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

William Jones.

**INSPECTOR OF CHIMNEYS.**

William Whalen.

# ANNUAL REPORT

## OF THE

# CONTROLLER OF THE CITY OF DETROIT.

CONTROLLER'S OFFICE,  
Detroit, April 21, 1868. }

*To the Honorable the Common Council:*

GENTLEMEN: I have the honor to submit to your honorable body an annual report from this office, as required by the City Charter, exhibiting the financial condition of the Corporation in its various departments and funds, its resources and liabilities, with a proper classification thereof, and complete tabular statements of all the receipts and disbursements of the City Treasury during the fiscal year, A. D. 1867, which closed on the 31st day of March last.

The sources from which all the funds were derived, and the purposes for which they were expended, are fully stated.

### INDEBTEDNESS OF THE CITY.

The entire indebtedness of the city, bonded, and all others (except the debt of the Water Commissioners),	
is . . . . .	\$464,758 66
From which deduct the resources of the Sinking Fund,	
including city bonds held by the Commissioners of the Sinking Fund, . . . . .	61,036 34
Leaves total liability to be provided for, . . . . .	\$403,722 32

On the first day of October next city bonds on account soldiers' bounties become due to the amount of \$23,000, and in 1869 bonds to the amount of \$79,660 will mature. To meet the bonds maturing in 1869, it will be necessary to levy a special tax for a portion of the amount to meet the same, unless a new loan is authorized.

### SINKING FUND.

The cash resources of the Sinking Fund will be sufficient to meet all liabilities on that fund during the present current year.

The Commissioners of the Sinking Fund have, during the past year, paid \$81,825 of the city bonds.

The cash balance in the City Treasury March 31, 1867,	
was,	\$151,498 56
The receipts during the fiscal year A. D. 1867, have been	715,586 64
	<hr/>
	\$867,085 20
The disbursements for the fiscal year 1867 have been	777,351 85
	<hr/>
The balance in the City Treasury March 31, 1868, is	\$89,783 35

#### INTEREST.

The interest on the public debt has been promptly met during the past year, and the balance on hand to the credit of this fund March 31, 1868, was . . . \$17,188 84

#### LICENSES.

Receipts for licenses during the past year was . . . \$5,282 00

#### MARKET RENTS.

The receipts for market rents for the past year were . . . \$5,764 28

#### GENERAL AND DISTRICT ROAD FUNDS.

The expenditures of the General and District Road Funds have this year, as heretofore, exceeded their appropriations, especially those of the District Funds. The total appropriation for all the District Road Funds were	\$87,400 00
The expenditures have been	42,159 90

I think the ordinance recently passed authorizing the Overseer of Highways to be paid an annual salary instead of a per diem allowance a good one, and will accomplish a great saving of expenditure of the Road District Funds, as the Overseers are not allowed by that ordinance to employ their own horses, wagons, etc., in the performance of their duties, but the same are employed by the Street Commissioners. It will also stimulate the Overseers of Highways to clean the streets at the proper season and in the shortest practicable time.

CITY POOR.

The appropriation for the city poor for the past year was \$17,500. This amount, although the largest ever made, was not sufficient to meet the demand upon the fund. This was chiefly owing to the severe weather. During the winter, upwards of 700 cords of wood were distributed to the poor, and assistance rendered by the Director of the Poor during the year was as follows:

	Families relieved.	Amount.
April, . . . . .	432	\$470 73
May, . . . . .	357	458 10
June, . . . . .	608	545 60
July, . . . . .	492	630 10
August, . . . . .	505	608 53
September, . . . . .	471	600 00
October, . . . . .	398	569 00
November, . . . . .	661	764 90
December, . . . . .	1458	1336 27
January, 1868, . . . . .	2146	1928 74
February, . . . . .	2715	2390 51
March, . . . . .	2557	1885 30
		<hr/>
		\$12,187 98
The amount paid St. Mary's Hospital the past		
year for care of city poor, . . . . .		2,279 26
		<hr/>
		\$14,467 24

PUBLIC PARKS.

The Public Parks have been very much neglected for the past year. They require a good deal of attention and care to keep them, as they should be kept, in good condition. These parks, if well attended to, and by planting and preserving alive our native forest trees, would in a few years be a great ornament to our beautiful City, as well as places of great general resort for the health and recreation of our citizens.

STREET OPENING FUND.

There has been paid for street openings during the year the sum of \$31,058.88. It will be necessary to open and extend a number of prominent streets the coming season, and as a matter of economy to the City, streets should be opened and extended before the land becomes too valuable.

NEW CITY HALL.

A contract has been made with Messrs. Osborn & Co., of Rochester, N. Y., for the completion of the new City Hall for the sum of \$379,512, the entire work to be completed by April 1, A. D. 1871.

The committee for negotiating loans have negotiated \$146,000 of city bonds, as authorized by the Legislature to be issued for public buildings to the amount of \$300,000, this being the balance that was authorized by said act, there having been issued heretofore for the House of Correction and new City Hall, bonds to the amount of 154,000. It will be necessary at the next session of the Legislature to get authority to make a further loan for \$300,000 at least to complete this work.

#### HOUSE OF CORRECTION.

I would refer your honorable body to the very able report of the Superintendent of the House of Correction for everything connected with his department.

#### BOARD OF EDUCATION.

The appropriation made to the Board of Education for the fiscal year 1867, was \$86,059.

The demands of this Board continue to increase annually. The number of children between the ages of 4 and 18 years, was as per census, 20,353. The number this year is 21,742, being an increase the past year of 1,389 children. From the able report of the Board of Education for the year ending March 31, 1867, it appears that 9,221 different names were entered on the school registers during the year, and the average daily attendance for the year was 5,888, and 1,559 applicants were refused admittance (owing to the want of room), the cost of tuition per pupil being \$7 87.

The increase of school room is also urgently demanded, and I think a majority of the citizens will cheerfully vote all the money that is absolutely necessary to give every child that applies to our public schools a good elementary education, which is of incalculable importance, not only to the child, but to the commonwealth at large.

#### FIRE DEPARTMENT.

The aggregate valuation of the property now in the hands of the Commissioners is estimated at \$131,852 46.

The expenses of the Department for the year ending March 31, 1868, was \$63,469 13. I refer to the Board of Fire Commissioners' report, which contains all the information required from that Department.

All of which is respectfully submitted.

B. G. STIMSON,  
*Controller.*
